

CARBON

Building on Success

Carbon Companies

Welcome to the online home of The Carbon Companies and our sister companies: Carbon Landmark Development, Carbon Thompson Development, Carbon Landmark Construction, Carbon Thompson Residential Management and Carbon Capital Partners. Our fully integrated real estate development and management companies are experts in multifamily, retail and commercial development, as well as acquisition, construction and property management.

We have a proven track record in identifying and acquiring development sites that exhibit a potential for high returns while matching our carefully planned development criteria. Our development and construction teams, which perform a full range of general contracting services, guarantee that all projects are of the highest quality and craftsmanship.

In 1993, The Carbon Companies earned the first of many coveted "Pillars of the Industry" awards, bestowed by the National Association of Home Builders' Multifamily Council (NAHB). The Carbon Companies have also won numerous city, state and national awards for project quality and design.

The Carbon Thompson Residential Management team utilizes the industry's most sophisticated operating systems to accurately budget both new build lease-up properties and stabilized assets. We view operating budgets and comprehensive capital improvement programs as road maps for delivering successful financial returns to our investors.

At Carbon, we have clearly established our leadership position within the industry through a unique synthesis of design excellence, project quality and business acumen – all while maximizing returns to investors and business partners.

You can count on Carbon's success to keep on building.
